TO THE PUBLIC.—THE SUBSCRIBER IS pleased to inform the public that his CHOLERA AND DIARRHŒA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfaction to all who have used it, than any other Medicine ever offered to the public. The following are among many testimonials of its efficacy:

DR. R. H. WORTHINGTON—Dear Sir: I take much pleasure in adding my testimony to others in favor of your remedy for Bowel Affections, &c., having so frequently experienced its beneficial results in my own case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore (and here permit me to say, I would as soon think of travelling without money as without this remedy,) and finding many among my acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF, as it has done here. I congratulate you, and especially the public, on the discovery of a medicine which is better calculated to protect mankind and alleviate suffering, than any other ever brought before the people.
L. T. SPIERS.

This is to certify that, some weeks back, I was taken with a violent Diarrhœa, which persisted for eight days. Being some sixty miles from home, I made use of all the remedies I could think of, but without affording any relief. On arriving at home, I was informed that Dr. R. H. Worthington had prepared a remedy for Cholera, &c., and was advised to use it. I did so, and to my astonishment, one single dose gave speedy and permanent relief, since which time I have used it frequently in my family; and in justice to the Doctor say, I consider it *much the most valuable Medicine* I have used in an experience of twenty years.
F. M. CAPEHART.
Murfreesboro', N. C., Oct. 2, '54.

DR. WORTHINGTON—Dear Sir: I take great pleasure in recommending your Cholera Medicine to the public, and more especially since I have had personal experience and observation of its beneficial effects.

I have tried several remedies put up for Cholera, &c., but have never found such happy results from any as from your invaluable remedy. I have such unbounded confidence in its efficacy, that I am unwilling and will not leave home without a supply with me; and I regard it as one of the most valuable discoveries of the age. Yours, truly,
W. P. BEAMAN.

WINDSOR, N. C., Sept. 19, '54.

DR. R. H. WORTHINGTON—Dear Sir: I have made some effort, and have succeeded in introducing your Medicine to the public, and I find it is taking very well indeed; and the result is, that I have nearly sold what you sent me. I therefore wish you would send me some more as soon as you can. * * * I have not the slightest doubt but that this Medicine is the very best remedy out for the disease for which it is recommended. I hope you will soon send me a supply, as I would not like to get entirely out of it.
Yours, truly,
GEORGE W. McGLAUGHON.

[From the Murfreesboro' Gazette.]

MESSRS. EDITORS: In looking over the last number of the Gazette, I found a communication from our friend, Mr. L. T. Spiers, recommending Dr. R. H. Worthington's Cholera Medicine to the public, for the cure of Diarrhœa, Dysentery, and other kindred diseases. Having experienced in my own case, the happy effects of its use, as well as other members of my family, I can safely say that I regard it as superior to any remedy we have ever used, in an experience of twenty years. I would, therefore, recommend it to every family, as an invaluable remedy, and every individual to procure a bottle and keep it by them in these times of cholera.
R. R. PARKER.
Murfreesboro', Aug. 30, '54.

This is to certify that I have used Dr. R. H. Worthington's Cholera Medicine in my family for the last four or five weeks, in several cases of Bowel Complaint, so common in our vicinity, with invariable success. One of the cases was that of a negro child, some four or five months old, who was so emaciated by the effects of the disease, that its life was nearly despaired of, when my wife happened to think that she would try the Cholera Medicine, and did so with complete success, in less than forty-eight hours. I am thoroughly of opinion that no family should be without so fine a medicine.

Given under my hand, this 3d day of October, '54.
A. W. DARDEN.

MURFREESBORO', N. C.

DR. R. H. WORTHINGTON: It affords us pleasure to say, that we have used your Cholera Diarrhœa Medicine for the last twelve months, and have found it invariably successful, in relieving speedily the cases in which we have had occasion to use it. We entertain a high appreciation of its value, and have no hesitation in expressing the opinion, that it will prove to be a valuable family medicine.

5,200 ACRES of TURPENTINE Land FOR SALE.—We offer for sale a tract of Pine Land containing about 5,200 acres, situated in Onslow county, adjoining the New Hanover county line. The Holly Shelter road from Wilmington to Jacksonville and Richlands, runs through it. There are 11 crops of Boxes on the land now in successful working condition, a Turpentine Still, capable of running 30 barrels, a Dwelling House, Store and Warehouse, Cooper's and Blacksmiths shops, Barns, Stables, Negro Houses, and in fact every thing necessary for the prosecution of the business; 16 mules, 6 waggons, timber carriages, &c., stock of cattle and hogs. The produce of the land is hauled 9 miles to navigable water for flat boats at all seasons of the year. The timber is hauled 5½ miles to a Creek. There is a considerable quantity of good timber on the land, and lightwood for making tar in abundance.

The above presents a favorable opportunity for Turpentine and Timber dealers, to make an investment which cannot fail to be highly remunerative. There are no Stills within 10 miles of the place, and consequently no competition in the purchase of the raw material. The subscribers having other business to attend to cannot give the place proper attention, and will sell the whole, or an interest of one-half to a competent person who will take charge of the premises and conduct the business. Raleigh and Gaston Railroad.

NOTICE IS HEREBY GIVEN THAT FROM AND after the 30th January, all dues to this Road for freight must be paid at Petersburg or Portsmouth, except on way freight, which must be paid in advance or on delivery of the goods as the case may be.

This arrangement will afford great advantages to our customers by superseding the necessity of their employing more than one forwarding agent between New York and Raleigh, and having their goods or produce subjected to only one handling.

Agents cannot violate the above rule without subjecting themselves to removal.

The greatest care will continue to be taken by the officers and agents of the Company in every department of its business to accommodate the public and promote the interests of its customers.

Whilst the Western merchants are going North a passenger train will leave Raleigh in the afternoon, on the arrival of the train from the West on the N. C. Road, due notice of which will be given.

By order of the Board of Directors,
L. O'B. BRANCH, *President.*

As the Company has two Depots in Raleigh, merchants ordering goods to go up the N. C. Road are requested to have them distinctly marked so that their destination may be known, and they may be loaded to the through Depot from Petersburg or Portsmouth.

THE UNDERSIGNED WILL PAY THE ABOVE REward of Ten Dollars, and other necessary charges, for the recovery of his two horses, of the following descriptions: One a gray mare, 9 or 10 years old, of medium size, a little flea-bitten, with a small scar on the right hind hough caused by a snag. She paces well under the saddle, but not fast. I had her 18 months ago of James Harris, of Raleigh, or his agent, Wm. Copley. Her colt is a sorrel colored mule, 3 white feet and half stocking legs, 2 behind and one before. The other fore leg is not recollected to have any white about it. He has a small star in the forehead, and was one year old last spring. Both mare and colt were in fair order when they left me, about 14th inst. When last heard from they were making their way up through Franklin county. My address is Nashville, N. C.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the
HON. EDWARD EVERETT, Senator of the U. S.
ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.
ABBOTT LAWRENCE, Minister Plen. to England.
† JOHN B. FITZPATRICK, Cath. Bishop of Boston.
Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & CO., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

By order Ex. Com.,
G. W. BLACKNALL,
Chm. Ex. Com. Granville co. Ag. So.

It is a noticeable fact, and we would earnestly commend it to the attention of those Democrats who may think or may have thought that the "order" would promote them, and that, through its portals was the direct route to office and preferment, that not one former Democrat has been elected in North Carolina, but that the former Whig K. N.'s have been. Reid, Latham, Shepard and Stowe have been thrown into the breach, and, politically speaking, slaughtered. Paine, Reade and Puryear are no doubt elected. Don't you see how it is? You Democrats are put in front ranks to break down the Democratic party, without any chance for yourselves; but where there is a chance, mark the difference! Not one of you is thought of. Don't you see and feel the secret influence that works the wires? Don't you see and feel how you are to be used? To rising young men in the Democratic party the appeal is made to come over—see how you are served when you do come over. Is it any place for Democrats? We have no doubt that many who make these appeals are perfectly sincere, but just look at the facts—the practical workings of the affair as planned out by the hidden hands that held the wires. The fact is that it could not well be otherwise. The case of the four former Democrats put forward to be defeated, as contrasted with that of the three former Whigs who have been elected, is a pretty hard one, but it may be useful for instruction. It may teach a lesson — The masses of all parties are honest—who can deny it—but the operation of a secret society like this cannot be the proper machinery to carry out the honest intentions of the masses, and it has not carried them out, and it cannot.—*Wil. Jour.*

We learn from the New Orleans Delta, that ex-Senator Foote, late of Mississippi, now of California, has connected himself with the Know Nothing party in the latter State. This is just what we expected to hear. Mr. Foote has lost the confidence and respect of the old parties, and he attempts to take position in the new one as a matter of self-defence. He finds himself in an extremity to which many a gamester has been reduced—one in which he *may* win and cannot possibly lose by a "hazard of the die."

The Know Nothings will scarcely add any thing to their strength by the accession of ex-Senator Foote. As a politician, he has been consistent only in inconsistency, and successful only in acquiring an ephemeral notoriety. It is doubtful whether he can influence a single voter in the Southern States.

"Here is my note at four months," said a delinquent boarder to a landlord, an aged Hibernian. "Can't you give me an endorser on it?" asked the landlord. The drawer of the note answered in the affirmative, and accordingly went out to look, as he said, "for a rider." After no great while he returned, and presented to his host the paper, with the name of his friend written in large letters across the back. The landlord seized it, and on observing the outside inscription, exclaimed, with Hibernian emphasis, "In the name of America and St. Patrick, was'nt the paper *bad enough* without *this* endorsement?"

In all kindness we would ask, is not Know Nothing paper "bad enough" without the endorsement of ex-Senator Foote? —*Montgomery Advertiser.*

A SIGNIFICANT SIGN.—We learn from the American farmer, which says it has the fact from reliable authority, that George Peabody, Esq., the eminent American banker, of England, has given the most earnest assurances to his correspondents in the United States that all the grain that can be spared in this country will be required in Europe the coming year. We know not on what date Mr. P. predicates his opinion as the accounts latterly received are rather favorable for the crops of England, but suppose it is based on the continuance of the war and the troubled state of affairs growing out of it.

IN FEEBLE HEALTH.—Several papers mention that the health of the Hon. Thomas H. Bayly is quite feeble.

For the Standard.

THE "STAR" OF THE 9TH INST.

MESSRS. EDITORS: Have you read the "*Star*" of Thursday last, the 9th inst.? If not, get it forthwith and read it. You ought to read it—you and all the hands in your printing office. It will do you good. Study the argument on Mr. Barringer's letter; mark the ability with which Mr. Rayner is disentangled; ponder on the picture it draws of you; digest those wholesome remarks, you will find they apply to you admirably: You are a mean, contemptible creature, without any veracity; and if you demand proof or satisfaction for this deliberate insult on my part, I refer you for proof to the *Star*, and in regard to satisfaction, you ought not to require it, because you know the *Star* says you are beneath the notice of——everybody!—and what the *Star* says is Gospel truth. Now, excuse me, gentlemen, but I am an old-fashioned, plain-spoken man, and I admire the *Star*. I know I have insulted you grossly, but you deserved it, because you have vexed the *Star*, which is the *organ* (*with a monkey*) of *Sam*; and there is but one *Sam*, and *Sam* is great, and the *Star* is his prophet; therefore you should not vex the one nor speak irreverently of the other. Do you perceive the force of my reasoning? I have learned my mode from the *Star*. By the way, I wish you would print the word *Star*, every time, in *Italics*. It is true the *Italic* is a sneaking, thievish, beggarly-looking, slouching type; but then it is forcible, impressive, attractive, you know; that is the idea. But to return: I wish to know by what right you demand that Mr. Rayner should publish a "*private*" letter? Mark the word, gentlemen, a *private* letter. It seems (from the *Star* of course) that this was a *private, unimportant* letter, upon a *public* and *important* matter; therefore Mr. Rayner had a right *not* to publish it, even though it was *written for publication* by Mr. Barringer, with an *express injunction* in the body of the letter that it should be published, "*in order to set all parties right.*" I trust you observe the force of my reasoning. But if you wish to see a specimen of brilliant reasoning on this question, where there is no dodging, or shuffling, or mean evasion, or any thing of that sort, just get the *Star* of the 9th! How I love the *Star*! for its manliness, its love of truth, its charity, the piety of its tone, the meekness of its exhortations, its readiness to correct errors, to take up the cause of the weak, its wide, humane, open, unselfish platform! Nothing small, narrow or contracted, like the STANDARD! Never lying, equivocating, [illegible]cuse me, gentlemen,) truckling, toadying, play[illegible] lick spittle, acting the small fry and still smaller potato, (excuse me, gentlemen,) fawning, cringing, crouching, praying, blaspheming, snorting, moaning, in short—*going to hell generally*, like the STANDARD! No, gentlemen, you never find the *Star* acting so, I tell you—and *I*, Jacob Fussy, tell *you*, gentlemen, that you ought to be ashamed of yourselves!

Allow me to ask you who wrote "*that stupid attempt at wit*," (that is what the *Star* calls it,) entitled the "Death and Burial of Sam?" The *Star* cannot see any point but a pint of whiskey in these two lines:

"Death, like love, levels all ranks,
And lays the *Shepard's* crook beside the *gizzard*."

Consequently neither can *I*, (though I must confess that I cannot find the slightest allusion, directly or indirectly, to whiskey in either line; but the *Star*, with its usual acuteness, says there is, and that is sufficient for me.) It is settled, then, that there is "*no point*," and you ought not to have put them there. It was very wrong, very wrong, indeed! Ah! how the *Star* lashes you, tears you to pieces, dismembers you, kicks you, laughs at you! How witty it is! How insuperably, superlatively and overwhelmingly funny! How severe when it chooses! Just observe that expression "*grabble!*" How cutting, how forcible! "*Grabble* in dirt!" What strength, what brilliancy! With what crushing effect must it tell upon you and the wretched writer of that miserable piece! How I luxuriate in that expression! *Grabble!*—there's music in it! *Grabble!*—there's *nature* in it! It resembles the cry of the stately turkey-gobbler, and brings the barn-yard before my mind! Ah! wonderful ingenuity of the *Star*! *Star* did I say? *Galaxy!* The name ought to be changed. Wonderful *galaxy!* Miserable STANDARD! "*Grabble!*"—excellent! splendid!—go it *Galaxy!*—"*grabble!*" *Vive le grabble!*

Do not occasion me to write to you any more, or, with the assistance of the *Star*, *alias Galaxy*, I will certainly cut you into minced meat.

Affectionately you[illegible]
JACOB FUSSY.

A NATIONAL, UNION PARTY.—The idea of electioneering for the so-called American party, as a National party, or a Union party, or a Southern party, or anything of the sort, is perfectly rich, and deserves, at least, the praise due to exceeding boldness of assertion, if nothing else. To claim that it is National when the fact is that *every* Northern State that has expressed any opinion, through its council or its organs, has repudiated everything National in its so-called platform, is simply to assert what is not so. National means, or is intended to mean, something considered and accepted as valid and obligatory throughout the whole country. This platform cannot be National, since it is utterly repudiated by every Know-Nothing State Council North of Mason & Dixon's line.

Union this party cannot be, since it is itself totally divided upon the only question that really threatens the perpetuity of the Union—the slavery question.—The Philadelphia Council cut it in two, the head falling North and the tail South. Constitutional it cannot be, since it aims to do what the Constitution prohibits being done by law. Southern it cannot be, since it recognizes fraternity with Abolitionism at the North, which there has fused with and absorbed the order. Nay, even upon other matters, matters over which it assumes special jurisdiction, it is divided—here, in North Carolina, where Catholics are weak—a drop in the bucket, incapable of exerting any influence, and where their power could not be feared—they are made a big bug-bear of, while in Louisiana, where they are strong, and if so wickedly inclined as they are represented to be, they might reasonably be feared and guarded against, they are petted and one of their number made the Know-Nothing candidate for Governor. In North Carolina, were they are weak, and could hurt nobody if they tried, the order runs them down and makes capital of so doing. Such is its nationality and consistency. It claims nationality because it has members all over the Union. It claims Southernism because it puts out, for Southern consumption, a platform which is spit upon by the North. If National—that is, if it takes in the whole country—it cannot be Southern, for its great strength is at the North, and is Abolition and anti-Southern. If Southern, it cannot be National, for the platform was passed by the minority of the constituencies, and, so far as the order is concerned, is simply sectional. Compare the North and South on the slavery question; compare North Carolina and Louisiana on the Catholic question; and then say what element the order has of nationality, consistency, or anything else. *Wil. Jour.*

PROGRESS OF MORMONISM.—Twenty-five years ago the "Prophet" Joseph Smith organized the Mormon Church with six members. At the present time the Church in Utah Territory contains three Presidents, seven apostles, two thousand and seventy-six "seventies," seven hundred and fifteen high priests, nine hundred and ninety-four elders, five hundred and seventy-one teachers, two hundred and twenty-seven deacons, besides the usual ratio of persons in training for the ministry, but not yet ordained, and four hundred and eighty-nine missionaries abroad. During the six months ending with the beginning of April last, nine hundred and sixty-five children were born in the territory of Utah, two hundred and seventy-nine were baptized in the Mormon faith, and eighty-six were excommunicated from the church.

SEARCH THE SCRIPTURES, CHRISTIAN!—A strong anti-Know-Nothing document has fallen into our hands, handed down through the monks of middle ages, from which we quote the following passage:

"Leviticus, chap. 19, 33 & 34 verses: And if a stranger sojourn with thee in your land, ye shall not vex him.

But the stranger that dwelleth with you *shall be unto you as one born among you, and thou shalt love him as thyself*; for ye were strangers in the land of Egypt: I *am* the Lord your God."

Do you believe the Bible? If so, how can you after reading the COMMAND OF GOD continue a Know Nothing?—

Talladega Watchtower.

THE VICAR OF BRAY.

There are many Vicars of Bray among people now-a-days, and as portraying to the true character, we publish the following old song. Perhaps there are a few Know Nothing leaders who could wear the coat of the Vicar. If so, they will please put it on.

THE VICAR OF BRAY.

In good king Charles' golden days,
When loyalty no harm meant,
A zealous high church man I was,
And so I got preferment:
To teach my flock, I never miss'd,
Kings are by God appointed,
And damn'd are those that do resist,
Or touch the Lord's annointed.
And this is Law, I will maintain,
Until my dying day, Sir,
That whatsoever King shall reign,
I'll be the Vicar of Bray, Sir.

When Royal James obtained the crown,
And popery came in fashion,
The penal laws I hooted down,
And read the declaration.
The church of Rome I found would fit
Full well my constitution,
And had become a *Jesuit*
But for the Revolution.
And this is Law, &c.

When William was our King declar'd,
To ease the Nation's grievance,
With this new wind, about I steer'd
And swore to him allegiance;
Old principles I did revoke—
Set conscience at a distance;
Passive obedience was a joke—
A jest was non-resistance.
And this is Law, &c.

When gracious Anne became our Queen,
The church of England's glory,
Another face of things was seen,
And I became a Tory;
Occasional conformists base,
I dam'd their moderation,
And thought the church in danger was
By such prevarication.
And this is Law, &c.

When George, in *udding time*, came o'er,
And moderate men look'd big, Sir,
I turn'd a *cat a pan* once more,
And so, became a *Whig*, Sir;
And thus preferment I procur'd,
From our new Faith's defender,
And almost every day abjured
The Pope and the Pretender.
And this is Law, &c.

The illustrious house of Hanover—
The Protestant Succession;
To these, I do allegiance swear,
While they can keep possession;
For in my faith and loyalty,
I never more will falter,
But George my lawful King shall be,
Until the times do alter.
And this is Law, I will maintain,
Until my dying day, Sir,
That whatsoever King shall reign,
I'll be the Vicar of Bray, Sir.

THE GREAT SOUTHERN WEEKLY!

THE SPECTATOR:
WASHINGTON CITY, D. C.

A FAMILY JOURNAL OF LITERATURE AND NEWS FOR SOUTHERN READERS.

THE SOUTH HAS TOO LONG BEEN DEPENDENT upon the northern cities for its periodical literature. The weekly newspapers of Boston, New York, and Philadelphia, have swept like a flood over that part of the nation south of Mason and Dixon's Line, many of them carrying with them some of the prejudices of abolitionism; and inculcating, to a greater or less extent, doctrines injurious to southern institutions. This dependence of the mass of southern readers should be thrown off—and it is believed would have been long ago, if there had been facilities in the South for the publication of first class literary papers.

THE SPECTATOR,

Is published by a gentleman who has long been connected with some of the southern dailies, and has been undertaken to supply this want—that of a high-toned weekly paper

Of Southern interest and character.

The general plan of the paper is as follows: It has eight pages; three of which are filled with the best articles on Literature, Science, and the Arts; one to the editor's comments upon passing themes; one to general news, foreign and domestic; one to the interests of the Farmer—[the information on this page will be mainly derived from the Agricultural Bureau of the U. S. Patent Office]; one to a synopsis of the operations of the Departments of the Government; and one, during the winter, to a report of the proceedings of Congress: altogether making a plan which will be rigidly adhered to, and which is unequalled by any paper in the country, North or South.

The SPECTATOR is printed on new type and on fine paper. Its quarto form makes it convenient for binding, and each annual volume being accompanied by a full index, it will be a most valuable paper for preservation and reference.

Subscription, Two dollars a year. No paper is sent without the money. Specimen copies can be had on application to

THE DEMOCRATIC PARTY.

Never has the Democratic party occupied so proud and so responsible a position as at present. Great in its principles, great in its actions, and great in its results, it has herefore been called to battle against an open, bold and independent enemy, and one that claimed its respect; but now it is opposed by a party (if we may call it a party,) that attempts to overthrow the freedom of the elective franchise, and binds its deluded victims by solemn oaths to become the slaves of its leaders—a party that aims to subvert religious as well as political freedom, and to set up in their stead bigotry and intolerance, thus flying full in the face of the Constitution and totally disregarding that instrument, the very life and soul of the Union, and without which the Union would be a burden and a curse—a party that makes falsehood, prevarication and deception the chief requisites for membership, and lays its very foundations in the exclusion of truth—a party that appeals only to the prejudices and evil passions of our nature, and has not one ennobling quality in its whole composition—a party secret in its operations, concocting its schemes in the night, thoroughly organized and powerful for evil, guided as it is by unscrupulous, reckless, broken down politicians and desperate office seekers, who have staked all their hopes of personal aggrandizement in the movement and would rather reign over the ruins of our Republic than serve in its entire fabric—a party whose members are fired by its leaders with a fanaticism such as disgraced mankind in the darkest period of the dark ages, and the results of which have already begun to manifest themselves in bloody riots and devastating conflagrations—a party that has elevated none to office in the free States but Abolitionists of the darkest dye, and has found its greatest strength in the slave States in the sections where freesoilism has taken root—a party that is one thing in Massachusetts, another in Lousiana, another in Georgia, and still another in North Carolina, with as many shades and hues of coloring as can be found between black and white, and all united on but two points, *the offices and the spoils.*

This is the piebald, hybrid combination against which the Democratic party is called to do battle for the preservation of our Constitution and the rights guaranteed by it. We trust it will be equal to the emergency, for we believe the hopes of liberty now hang upon it. A large proportion of Northern Democrats have always been sound and conservative, while Northern Whigs, now Know Nothings, have long been rotten to the core. Our friends there have been prostrated beneath the wheels of this worse than juggernaut car, but they will rise again and the "sober second thought" will unite with them thousands of honest and duped men. We do not believe that the indominitable Democracy of Pennsylvania and New Hampshire will ever again be beaten down. Whiggery stunned the ears of our people with a tornado of excitement in 1840, and dazzled their eyes with the glare of military glory in 1848, and in each instance acquired a brief supremacy, more disastrous to it than its defeats. Thus will it be with Know Nothingism. Once in power, as in Massachusetts, it will disgust all honest, right-minded men, and its very success will work its destruction.

We do not despair of the Union. Democracy has placed it upon its foundations so firmly that a short reign even of Know Nothingism cannot shake it from its base. We hope never to see that reign—we believe we never shall see it; but even if it comes we shall not lose hope. As in times of temporary defeat heretofore, the Democratic party will rally with redoubled strength to prop the tottering edifice of our liberties, and victory will again reward its patriotism. But now is the time to drive this detestable *ism* from our midst. It sneaked among us and was in full vigor before we knew it existed. It came in the dark, and it cannot bear the light. Already have Virginia, North Carolina, Alabama and Tennessee dealt it heavy blows. We believe it has received its death wound, but it will make a spasmodic effort next summer, and we must prepare to meet it. From its past course, we know it will stop at no means in the future to accomplish its ends. Let us keep up our organization—let us remain united and watch for and expose its tricks, and we shall achieve a triumph which, in coming years, will make our children proud of their fathers.

ALABAMA.

The latest news from Alabama is up to the 8th. Winston, Democrat, has been re-elected Governor by a large majority, and the Democrats have gained in the Legislature. Dowdell, Shorter, Harris, Houston, and Cobb, Democrats, are elected to Congress, and Smith, K. N. One District in doubt.

"Sam" has retired, wofully beaten, to his dark cavern. Jerry Clemens has been again weighed in the balance by the people of Alabama, and found wanting. Jerry is a light production.

Hurrah for "the Alabam!"

KENTUCKY.

The Washington Union of Saturday says: "Yesterday's western mail brought us Louisville papers of the 8th, and Cincinnati papers of the 9th. There is no doubt of the election of the Know-nothing State ticket by a large majority. The returns from the Congressional Districts continue to be of a confused character. The probabilities are that three Democratic candidates, at least, have been elected."

The honor of this triumph in Kentucky is *blood-stained.* Twenty corpses in Louisville—some of them roasted—are among the trophics of this Know Nothing victory!

TENNESSEE.

The latest news from Tennessee is up to the 7th. All the Counties but five had been heard from, and these gave Gen. Pierce 122 majority over Scott.—Gov. Johnson's majority, it was considered certain, would not fall below fifteen hundred.

The Democrats entertained strong hopes that they had carried the Legislature.

Andrew Johnson is invincible. Honor to the poor tailor boy of Raleigh! North Carolina is proud of the son she gave in change to her daughter, Tennessee.

☞ The State of Georgia will vote in October, and Louisiana, Mississippi, and Maryland in November next.

RIOT AND BLOODSHED IN LOUISVILLE.

We give below, from the Louisville Courier, an account of the disgraceful riot in that City at the recent election. We ask men of all parties to read and ponder these alarming details of mob law, and to reflect upon the source and cause of them, to wit, Know Nothingism; which is alone responsible for this war between races and religions.

The following article, from the Louisville Journal, on the morning before the election, will show the spirit by which the K. N. leaders were actuated:

"We are glad that the Germans have made up their minds to go to the polls to-day. It is their right to go. We hope, however, that they are going in obedience to the promptings of their own sense of propriety, and not at the instigation of the Sag-Nicht bullies and ruffians who are well known to have organized a fighting band here for the work of to-day. Let the Germans go by all means to the polls, and, if there is time for all to vote, let them be sure to vote. *But we cannot resist the conviction that, if there shall not be time in any particular ward to take the votes of the whole voting population, if a portion, for the want of time, must be debarred from the exercise of the elective franchise, then every consideration of courtesy and propriety and right strongly and imperatively demands that the foreign-born citizens, comparatively strangers to our country and its institutions, mere guests as it were upon our country's soil, victims hospitably received here in their flight from European despotism, should, of their own free accord, stand back until the native-born freemen shall have recorded their suffrages.* We hope, and we have a right to expect, that they themselves, in spite of the inflammatory appeals of selfish and malignant demagogues, will take this view of the matter. It is the *right* view."

Here, as the Washington Union observes, was open invocation to violence. Here was an open invitation to the bullies to block up the polls, so that no man should vote who did not vote for the proscription party. Language could go no further than this. Not only is it an attempt to excite dissensions between citizens who are equal before God and the law, but to degrade the adopted citizen into a condition of inferiority and moral slavery. Not matter how early an adopted citizen may have offered his vote, no matter how far in advance of others he may have been, he was to "stand back" till the know-nothings had done their work; to "stand back" with a brand upon his brow; to "stand back" like a felon; to "stand back" as if he carried the pestilence about him! We venture to say, that never before in any canvass has there been so deliberate a proposition for bloodshed and murder. The Journal gave full notice of the deed that has since been so savagely consummated. The adoption of this principle would drench every city in the Union in the best blood of both parties.

The City of Louisville, it is known, is under the control of the Know Nothings; and the Louisville Democrat says, "the lawlessness was provided for by the City authorities in allowing but one voting place in a Ward."

We observed, in the Louisville Democrat of July 20, an account of an attack by a K. N. mob on the property of an Irishman named Quinn, immediately after listening to some inflammatory speeches by K. N. leaders. Quinn had resided there twenty-one years, and had acquired considerable property. Five or six of his houses were nearly destroyed, and a woman, one of the tenants, was shot through the arm. The "Democrat" called then on the City authorities to come forward and check this mob spirit, but there was no action. We observe now, in the list killed in the late riot, the name of Quinn. His houses were burned, and five persons roasted to death in them!

[From the Louisville Courier.]

We passed yesterday through the forms of an election. As provided by the statute, the polls were opened, and privileges granted to such as were "right upon the goose," with a few exceptions, to exercise their elective franchise. Never, perhaps, was a greater farce—or as we should term it, tragedy—enacted. Hundreds and thousands were deterred from voting by direct acts of intimidation, others through fear of consequences, and a multitude from the lack of proper facilities. The city, indeed, was, during the day, in possession of an armed mob, the base passions of which were infuriated to the highest pitch by the incendiary appeals of the newspapers organ and the popular leaders of the Know-Nothing party.

On Sunday night, large detachments of men were sent to the first and second wards to see that the polls were properly opened. These men, the "American Executive Committee," were supplied with requisite *refreshments,* and as may be imagined they were in very fit condition on yesterday morning to see that the rights of freemen were respected. Indeed they discharged the important trusts committed to them in such manner as to commend them forever to the admiration of outlaws! They opened the polls, they provided ways and means for their own party to vote; they buffed and bullied all who could not show the sign; they, in fact, converted the election into a perfect farce, without one redeeming or qualifying phase.

We do not know when or how their plan of operations was devised. Indeed we do not care to know when such a system of outrage—such perfidy—such dastardy—was conceived. We only blush for Kentucky that her soil was the scene of such outrages, and that some of her sons were paticipants in the nefarious swindle.

It would be impossible to know when or how this riot commenced. By day break the polls were taken possession of by the American party, and in pursuance of the preconcerted game, they used every stratagem or device to hinder the vote of every man who could not manifest to the "guardians of the polls," his soundness on the K. N. questions. We were personally witnesses to the procedure of the party in certain wards, and of these we feel authorized to speak. At the seventh ward we discovered that for three hours in the outset in the morning it was impossible for those not "posted" to vote, without the greatest difficulty. In the sixth ward a party of bullies were masters of the polls. We saw two foreigners driven from the polls, forced to run a gauntlet, beat unmercifully, stoned and stabbed.—In the case of one fellow, the Hon. Wm. Thomasson, formerly a member of Congress from this district, interfered, and while appealing to the maddened crowd to cease their acts of disorder and violence, Mr. Thomasson was struck from behind and beaten. His grey hairs, his long public service, his manly presence, and his thorough Americanism, availed nothing with the crazed mob. Other and serious fights occurred in the sixth ward, of which we have no time to make mention now.

The more serious and disgraceful disturbance occurred in the upper wards. The vote cast was but a partial one, and nearly altogether on one side. No show was given to the friends of Preston, who were largely in the majority, [illegible] the face of cannon, musket, and revolvers, [illegible] not, being an unarmed and quiet populace, [illegible] the mad mob. So the vote was cast one way, and the result stands before the public.

In the morning George [illegible], a carpenter living on the corner of 6th and Market, was killed near Hancock street. A German named Fitz, formerly a partner at the Gulf House, was severely, if not fatally, beaten.

In the afternoon a general row occurred on Shelby street, extending from Main to Broadway. We are unable to ascertain the facts concerning the disturbance. Some fourteen or fifteen men were shot, including officer W[illegible], Joe Selvage, and others.—Two or three were killed, and a number of houses, chiefly German coffee houses, broken and pillaged. About 4 o'clock, when the vast crowd, augmented by accessions from every part of the city, and armed with shot-guns, muskets and rifles, were proceeding to attack the Catholic church on Shelby street, Mayor Barbee arrested them with a speech, and the mob returned to the first ward polls. Presently a large party arrived with a piece of brass ordnance, followed by a number of men and boys with muskets. In a hour afterwards the large brewery on Jefferson street, near the junction of Green, was set fire to.

In the lower part of the city the disturbances were characterized by a greater degree of bloody work. Late in the afternoon three Irishmen going down Main street, near eleventh, were attacked, and one knocked down. Then ensued a terrible scene; the Irish firing from the windows of their houses on Main street repeated volleys. Mr. Rhodes, a river man, was shot and killed by one in the upper story, and a Mr. Graham met with a similar fate. An Irishman who had discharged a pistol at the back of a man's head, was shot and then hung. He, however, survived both punishments. John Hudson, a carpenter, was shot dead during the fracas.

After dark, a row of frame houses on Main street, between Tenth and Eleventh, the property of Mr. Quinn, a well known Irishman, was set on fire. The flames extended across the street, and twelve buildings were destroyed. These houses were chiefly tenanted by Irish, and upon any of the tenants venturing out to escape the flames, they were immediately shot down. No idea could be formed of the number killed. We are advised that *five men were roasted to death,* having been so badly injured by gun shot wounds that they could not escape from the burning buildings.

Of all the enormities and outrages committed by the American party yesterday and last night, we have not time now to write. The mob having satisfied its appetite for blood, repaired to Third street, and until midnight made demonstrations against the "Times" and "Democrat" offices. The furious crowd satisfied itself, however, with breaking a few window panes, and burning the sign of the Times office.

At 1 o'clock this morning, a large fire is raging in the upper part of the city.

Upon the proceedings of yesterday and last night, we have no time, nor heart now to comment. We are sickened with the very thought of men murdered, and houses burned and pillaged, that signalized the American victory yesterday. Not less than twenty corpses form the trophies of this wonderful achievement."

THE YELLOW FEVER.

The last Petersburg Express says, we understand from gentlemen who came up yesterday on the Curtis Peck, that the fever is not supposed to be on the increase in Portsmouth.

Seventeen new cases and four deaths were reported in Norfolk on the 10th, and two new cases and seven deaths in the Hospital. The Herald, speaking of this report, says: "The cases reported yesterday are all to be traced to the infected region; and the deaths, with one exception, were of persons removed from Barry's row." Barry's row was burned on Thursday night last. No effort was made to check the flames. The fire is supposed to have been intentionally communicated by some one.

Three cases of yellow fever were reported at Hampton, Va., on the 10th.

We sincerely trust that the disease may soon abate in Norfolk and Portsmouth. The panic thus far has been great. It was natural that the citizens should be alarmed, but they seem to have been impressed, as is always the case, more by the fear of evils to come than by those actually in existence. Not more than one hundred and twenty-five deaths, we presume, have occurred in the two Cities, out of a population of twenty to twenty-five thousand.

☞ It will be impossible for Mr. Rayner to extricate himself from the difficulties in which he has involved himself in the Barringer and Nuncio affair. It is due to the character of the government of the United States and of the people of the county, that the whole matter should be, as it will be, thoroughly exposed. The "bluff game" played by the Star, one of Mr. Rayner's organs, will pass for nothing. We have been too long in the harness, and seen too much of the ups and downs of politicians, to be influenced by such means, or by any means, to omit the performance of plain duties. Mr. Rayner has "sown to the wind," and must be content, if possible, to "reap the whirlwind." We know something of his *unexcitable and philosophic* temper; and we calculate, not too largely, we trust, on the *dignity* and *equanimity* with which he will bear a fuller and more thorough investigation of this affair. It becomes K. N. leaders to look well to their facts, before they charge corruption on President Pierce and the Democratic party. "Be always sure you are right," Mr. Rayner, and then—if you can—"go ahead."

By the way, *why is it that the Star and Register have thus far suppressed Mr. Barringer's late letter to Mr. Ellis?* That letter is, of itself, conclusive against Mr. Rayner. Do the Editors of the Star and Register fear, on Mr. R's. account, to let their readers see it?

CATHOLICS.—"Whatever be the merits of the Catholic religion in reference to a future world, certain it is that its tendency is most inauspicious to liberty in this."

[*New York paper.*

"We fear that the author of the above remark was governed more by the prejudices of education, than by the facts of the case. FREE TOLERATION *is allowed in the dominions of the Pope; and the* CATHOLICS *of Maryland, as the early history of our country will show, exhibited a* SIMILAR *spirit.* The most familiar evidence in the case may be drawn from England. No one will pretend to say that the conduct of Henry VIII. and Elizabeth, was more favorable to liberty than that of Catholic sovereigns who preceded them; especially if we take into view [illegible] and the commercial habits of the people. We do not specially advocate the cause of this particular sect, *but we would wish to place it on an* EXACT LEVEL *with* OTHER DENOMINATIONS. *The letter of our constitutions and the spirit of our laws place it there; and it as a station which will be awarded to it by every* ENLIGHTENED *and* UNPREJUDICED *mind.*"—*Peoples' Press and Wilmington Advertiser.* Thomas Loring, Editor, Aug. 13th, 1834.

The Wilmington Journal has brought the above to light.

This same Thomas Loring is just now very much exercised on the subject of Catholic influence, and is sworn to proscribe and exclude them from all offices whatsoever. It is very apparent, however, from the late and present tone of the Commercial, Mr. Loring's paper—that he is troubled and provoked by the unmistakable evidences constantly coming to light, of the rank abolitionism of the K. N's of the free States; and we feel sure that he cannot and does not sympathise with Mr. Rayner in his alliance with the K. N's of the section referred to; but it remains to be seen whether Mr. L. will have the independence to denounce this abolitionism, to admit that it is K. N. doctrine, and to cut himself loose therefrom. Many men who boast that they are free from party bias and party influence, are the most confirmed subjects of party spirit. It is not that Mr. L. loves K. Nothingism better than he does his State, or that he hopes for a national K. N. party more than he does for Southern union; but that he hates Democracy more than all things else political.

A CRUMB OF COMFORT.—The Ashville Spectator says, "let the friends of America commingle their rejoicings and exchange their gratulations" over the fact that Mr. Clingman was beaten in his County and at his own precinct! "The smallest favors, thankfully received."

QUERE?—Who does up the Editorials for the Raleigh Star, since he has been branded as "a liar, a blackguard and a scoundrel?" It is certainly *Doubtful.*

The following, accompanied by a communication, was received several days ago, but by some means or other got misplaced. The writer states that he was induced to join the Know Nothings in this place, in April last, through the instrumentality of a *friend,* and, as usual, with a distinct understanding that his doing so should not interfere with his politics or religious relations towards his fellow men. But, *as usual,* he soon found he had been deceived, and at once cut the whole concern. This is his note addressed to the council for a dismissal:

July 7th, 1855.

"GENTLEMEN: I am bound by conscientious scruples to withdraw from your order, as I feel, after properly meditating the subject, that I cannot be a true Democrat and carry out the principles of the American party. You will confer a favor on your friend by granting me a card of withdrawal and sending the same by mail to my post-office.

N. B. Please read this my resignation in your council as the sentiments of my heart.

A. N. BETTS."

HOW MR. LATHAM WAS *ELECTED!*

The Washington Times of the 1st August, held the following language in relation to Col. Ruffin and the *Reverend* Mr. Latham:

"TOKENS OF WHAT THE END WILL BE.—The day of election is so near at hand that it is useless to speculate upon the result; a few days will allay all doubts. But we may as well state for the gratification of all concerned, that our private correspondence from all parts of the District represents the prospects of Mr. Latham's success as extremely flattering. Daily accessions are made to the American parity in every direction. We believe that Mr. Latham will beat his opponent easily, and we should not be at all surprised if he beats him by a large majority. So mote it be!"

What a prophet! Col. Ruffin's majority is just 3,275!

☞ We make the following extract from the Raleigh Register of June 30, 1852:

"Gen. Scott is a Protestant, a member, we learn, of the Episcopal Church. The mean attempt which has been made to create a prejudice in the minds of some, by charging him with Roman Catholicism, is just of a piece with the intolerant sport of locofocoism. DISGRACEFUL AND RUINOUS WILL BE THE DAY WHEN THE RELIGIOUS "TEST" SHALL BE APPLIED TO OFFICE IN THIS COUNTRY! Who inquired the religious opinions of Gen. Scott when he was leading the armies of the Republic to victory and glory?"

☞ We have received, and cheerfully place upon our exchange list, the *Kansas Herald,* printed at Fort Leavenworth. The Herald is a stanch pro-slavery paper. We give the following as a specimen of its Editorials:

"THE BIRTH-DAY OF AMERICAN INDEPENDENCE DESECRATED.—This great and glorious day was not celebrated in a very becoming or appropriate manner in certain localities of our Territory. In some places it was hailed with outbursts of patriotism—in other places with boisterous declamations of treason and fanaticism. In the infamous and polluted village of Lawrence, the day was sadly desecrated.—The sly, perfidious, Godless fanatics of that sink hole of Abolitionism assembled together, vented the vilest treason, and invoked the most revolting imprecations upon the prosperity and institutions of our Territory. A silly, dry, insipid harangue on slavery was delivered by some man calling himself Robinson, after which the crazy fanatics offered some of the vilest and most execrable sentiments that ever from the lips of man. The following toast was offered by a company of Boston paupers—who came to this Territory under the guidance of the New England Aid Societies—known as the Lawrence *Sharp* Shooters (?), and was greeted with the most enthusiastic salvos of applause:

The Kansas Legislature.—A body alien to our soil, elected, by *fraud:* We are not responsible for their *acts,* and ask no favor at their hands."

THE GLORIOUS TRIO!

We give below the votes of three precincts—two of them in Nash, and one in Johnston—at the late election. Old Fields, Ferrills', and Kirby's deserve to be "in our flowing cups freshly remembered." Mr. Shepard did better at these three boxes than he did at Hawtree, Warren, for at these three he got two votes, and at Hawtree none.

Old Fields, Nash,	190	00
Ferrill's, "	150	00
Kirby's, Johnston,	115	2

The above are adjoining precincts.

☞ A negro woman, the property of Geo. W. Mordecai Esq., was imprisoned in our County jail on Thursday last, charged with murdering a negro man, Mr. M's foreman. It is said that she choked him to death.

☞ We are requested to state that copies of the Laws and Journals of the last Legislature, may be obtained at the office of the Secretary of State at the following prices: Journals, $3—bound laws, public and private; $3—public laws alone, 50 cents.

FIRST SHERIFFS TO SETTLE.—We learn from Mr. Comptroller Brooks, that the first Sheriffs who settled this year with the Public Treasurer for public taxes, were Mr. Caleb Miller, of Union, and Mr. Joshua Sikes, of Union. These officers deserve credit for their fidelity and promptness.

THE HON. H. M. SHAW.—Though defeated in the late election, this gentleman holds a higher place than ever in the affections of the Democracy of the District. His high and honorable bearing—his untiring energy, and his able advocacy of our cause, have served to endear him more and more to the hearts of the friends of Democratic principles; and though slandered and traduced by many of the dirty minions of Know-Nothingism who make a trade of detraction, he has emerged from the canvass with an escutcheon untarnished, a reputation unimpaired, and a strong hold upon the esteem of his party which nothing that his enemies may do can ever shake.—He is defeated; but his party are on that account no less grateful for the eminent services he has rendered to the cause. He stands deservedly higher to-day, covered even with defeat, than he did when he entered upon the canvass; and his party can never forget his services, his ability, or his devotion, but on the contrary will ever hold them in the most cherished remembrance. He has faithfully done his whole duty, and in his retirement, which we believe will be but temporary, he will be sustained by a clear conscience and a grateful and devoted party.

Dem. Pioneer.

PREACHER RUN MAD!—A *Reverend* W. H. Holcombe, a candidate for the legislature in Mississippi, said on the stump the other day, after a most violent diatribe against the Catholics, that "*he would as soon preach to a jackass as an Irishman!*" Ex-Governor Matthews, in reply to the *Reverend* gentleman, asked him, "Has not an Irishman a soul? Did not your Heavenly Master say, 'Go ye into all the world and preach the Gospel to every creature?"

This and similar facts shew very clearly that, whatever may be the effect of the discussions and elections of the day on political parties, the cause of religion will come out of the contest with soiled garments. Its professors and teachers have dragged it into the dirty arena of party politics, and can any true Christian expect it to come forth undefiled? To the man who has the welfare of his Father's kingdom at heart, the question is "food for reflection."

Montgomery Advertiser.

Citizenship in Great Britian is not so difficult to be attained as might be imagined. There is some delay and unnecessary routine to be performed, and rather heavy expenses in the way of fees to be provided for, as is common with everything in which the English government has a finger, but the provisions of the law regulating naturalization, are, on the whole, very liberal. In the statute 7 and 8 Victoria, c. 66, entitled "an act to amend the laws relating to aliens," it is directed that the applicant must send to the Home Secretary a memorial praying for the grant, and setting forth the name, age, and profession of the applicant, whether married or single—if any children or not—of what friendly State a native—and if he intends to continue to reside in the United Kingdon. The memorial must be substantiated by an affidavit of the petitioner, and the declaration of four householders of good repute, affirmatory of his respectability and loyalty. A certificate of naturalization is then issued, which entitles the person to whom it is granted the right to vote, hold freehold property, and all the other immunities and privileges of a British subject, except that of a seat in the Legislature on the Privy Council. The cost of procuring this certificate amounts to nearly thirty dollars.

PROMOTION OF NORTH CAROLINIANS.—Among a number of promotions in the U. S. army made by President Pierce, and recently published, we find the following:

Second Lieut. Francis T. Bryan, to be First Lieut; to date from July 3rd, 1855.

Second Lieut. Robert Ransom Jr., of the First Dragoons to be First Lieut. with a view to his appointment a regimental Adjutant; commission to date from March 3rd, 1855.

Both of these officers are natives of North Carolina, the former from Raleigh, the latter from Warren County. They are both graduates of the Military Academy of the United States at West Point. We hope that we shall be pardoned for the expression of our sincere gratification at the meritorious distinction which our young and gallant friend Ransom has already won for himself by his active and faithful services in the Army of his country, since to our hands was confided the charge of his early education, preparatory to his admission into the West Point Academy. We must be permitted therefore, to participate in the pride and pleasure of his promotion, and to hope that this talented and noble young officer, noble in all the rich and rare endowments of the scholar and the gentleman, may continue to be promoted in rank and eminence, commensurate with his exalted merit.

War. News.

APPOINTMENT BY THE PRESIDENT.—Wilson Shannon, of Ohio, to be governor of the Territory of Kansas, in the place of John L. Dawson, declined.

We are quite certain that the announcement of the appointment by the President of Hon. Wilson Shannon to be governor of the Territory of Kansas, in the place of Hon. John L. Dawson, whose declination was communicated yesterday, will give general satisfaction. Governor Shannon's attainments, his large experience in public affairs, State and national, his sound discretion, and his unquestioned integrity, eminently fit him for the delicate and responsible position to which he has been called. He is about fifty-eight years of age, was by the choice of his fellow-citizens a most acceptable governor of the State of Ohio, a distinguished member of the last Congress from the seventeenth district of that State, and a firm and able supporter of the Kansas and Nebraska bill.

Washington Union.

NOT A WHIG TRICK, OH NO!—The Know-Nothing Party is not a "Whig trick," oh no. So say the Know-Nothings. Let us see then why it is not a Whig trick. In the first Congressional District the Know-Nothings have nominated for Congress, SAM'L. VARNADOE, an old Whig: In the 2nd WILLIS A. HAWKINS, another old Whig: in the 3rd ROBT. P. TRIPPLE, another old Whig: In the 4th B. H. HILL, another old Whig: in the 6th Y. L. G. HARRIS, another old Whig: in the 7th N. G. FOSTER, another old Whig. And yet it is not a "Whig trick"—oh no, certainly not; how could it be a Whig trick? Every candidate of the Know-Nothings except Tumlin was a Whig, and he has not acted with the Democracy since 1850.

Fed. (Ga.) Union.

TOBACCO.—The Indianapolis State Sentinel, referring to the arguments used, in support of the Maine Law, say "that the report of the Lunatic Hospital of our own State shows that the cases of insanity from the excessive use of tobacco lack but one of being as numerous as those from the excessive use of alcohol."

Who can tell how long before tobacco will be the rallying cry of political parties? Then we shall have "quids' and 'anti-quids' in the place of 'tods' and 'anti-tods.' Then, we presume, the morality of a man will be determined by looking at his grocer's bill. There is nothing like 'progress."

GUANO A PREVENTIVE OF YELLOW FEVER.—A correspondent of the Norfolk Herald suggests that guano be tested as a preventive of yellow fever. He gives the following as the reason his suggestion:

I take leave now to state a fact which was related to me by Captain H. H. Gocke, U. S. Navy, whilst he was in command of the sloop of war St. Louis, on the coast of Brazil, during the awful rage of yewlow fever there some years back. He stated to me that the crews of the merchant vessels were swept off in the most awful manner, and every ship of war in Rio, says the St. Louis, shared the same fate; she, if my memory holds good, did not lose a soul. This he *attributed solely to a quantity of guano* he had purchased for his own farm, as an experiment when he returned home. There was not more than one or two barrels of it, and such was his faith in it as a preventive, that he had it sifted about on the berth deck of the ship.

Notice to Travellers going North.

PASSENGERS GOING NORTH TO WELDON ARE informed that the Express train leaving Weldon will run only to Suffolk, distance seventeen miles from Portsmouth. At Suffolk a Steamer will be in readiness to convey passengers to Hampton Road or Old Point and proceed thence by the Bay Steamer to Baltimore, thus avoiding all intercourse with Norfolk and Portsmouth. This course has been adopted, not in consequence of any real danger, but to allay all excitement and prevent any interruption to the regular transportation of the mail and passengers.

Passengers may be assured that by this arrangement there will be no detention and that they will be taken from Weldon to Baltimore in usual or schedule time.

CAREFULLY CORRECTED WEEKLY BY

Grocers and Commission Merchants, No. 129, Sycamore St.
PETERSBURG, Aug. 11, 1855.

TOBACCO—For good and fair leaf tobacco, the demand is active, and prices are very well sustained. Common leaf and lugs are rather lower. Breaks moderate for the season.

WHEAT—Since our last we have to note a decline in this article. During the early part of the week sales were made at 190 a 195 for choice red and white. Yesterday small sales were made at 187½ a 192½, since which prices have somewhat settled, and 185 a 190½ is the best to be obtained to-day. For medium and damp parcels there is less activity, the latter being very dull. We quote such parcels at 187½ a 150; medium 150 a 167½.

COTTON—We hear of but limited transactions in cotton this week. Receipts light. We quote good to prime selections 11½ a 11¾. For lots in store, holders demand 12.

CORN—Market dull, with sales mostly in a retail way, at 180 a 185.

GUANO—Stock heavier. No. 1 Peruvian $51 a 52, with a good demand. Mexican $30 a 33.

SALT—L. P. fine 165 a 170. G. A. 140 a 145.

MAYOR'S OFFICE,
Raleigh, Aug. 7th 1855.

PROCLAMATION.

THE UNUSUALLY HEAVY RAINS WHICH HAVE lately fallen here—the vast accumulation of dirt in the drains and cellars of this City—the season of the year, and prevalence of an epidemic, in our immediate neighborhood make it the duty of the corporate authorities, to take early steps for the prevention of disease in our midst. We are advised by the Physicians, that although, no cause for alarm exists; (the city being at this time unusually healthy) it will not be safe, at this season of the year, to omit any proper precaution. It must be obvious to you, however, that this desirable object can only be attained by *your* hearty concurrence in the action of the commissioners, and I therefore issue this my Proclamation, earnestly and respectfully soliciting the co-operation and assistance of all good citizens. I beg that every inhabitant of the city, will make it his special business carefully to examine his own premises, and to the end that every portion of the city may be thoroughly cleansed and purified, to report to me at this office, where I may always be found, the existence of any local cause for disease, so that I may cause the same to be removed without delay. The commissioners have placed at my disposal a sufficient quantity of lime and copperas for *free* distribution—no one, therefore, can feel himself excused for omitting to use them freely, for want of means, or by reason of expense.

PROSPECTUS OF

THE CAROLINA PENNANT.

The newspaper press of this City being devoted principally to the stale, unprofitable and flat subject of politics, the undersigned have thought it would not prove altogether unacceptable to the community to give them an opportunity of patronizing an enterprise which has for its object the instruction and amusement of all classes, ages and sexes. With this purpose in view, we throw our PENNANT to the breeze, trusting that prosperous gales will soon waft it into the port of success.

Whilst we shall not advocate, Democratic, Whig or Know-Nothing measures, nor offer ourselves as the organ of any sect, faction or ism, we intend to speak independently and boldly on all subjects, our motto being "INDEPENDENT IN ALL THINGS--NEUTRAL IN NOTHING." Wit, humor, fun and amusement of all kinds will be our special delight, but we shall expect at all times to be ready to doff our caps to the public with a view of contributing our share to their instruction. An able corps of writers of varied talents will be engaged to cater to the tastes of our readers, and no effort will be spared to make the PENNANT one of the prettiest, wittest, neatest, spiciest, most instructive, most entertaining and most desirable of all the publications of the State. We shall "know but the interests of our readers and the amusement of the public, we shall "see nothing" but what will entertain our readers, and we shall "hear nothing" but what will make our patrons our firmest and fastes friends.

Now, come all and give us a helping hand. We appeal to no clique or faction, we have no one to wire-work for us, but we look to the whole people, to all ages, all classes, all sexes, for that support which is the breath of the nostrils of a newspaper enterprise.

The CAROLINA PENNANT will be issued every Thursday morning, printed on a super-royal sheet, with fair new type, at the following low rates:

Single subscribers $1 00 per annum, invariably in advance. If payment be delayed longer than six months, $1 50. If not paid until the end of the year, $2 00.

Any person sending us a Club of five subscribers with the CASH are entitled to an extra copy.

The first number of the CAROLINA PENNANT will be issued on the 16th of this month.

HOME TRADE AND MANUFACTURE.—We have this day made arrangements with the "ALPHA WOOLEN MILLS," of Orange County, as *sole agent* for the county of *Wake* for the sale of their MERINOS, JEANS, and KERSEYS; and we invite the attention of our merchants and farmers to an examination of these articles, before purchasing elsewhere, as they are much better and lower than the same article of Northern manufacture. We will sell to merchants at the factory prices, in order that they may have an opportunity of retailing for a profit.

To those who have negroes to clothe, it is to their interest to procure these HOME MADE KERSEYS, as they are made of better material and with twice the quantity of *Wool.* Call and look at them.

We will have in store within a few days, a large lot of the Pepper and Salt, Gray and Black, and Solid Black NORTH CAROLINA CASSIMERE, manufactured at the ROCK ISLAND FACTORY, near Charlotte. The Cassimeres are durable and handsome, and every gentleman in North Carolina should have a suit of them.

"THE SPECTATOR."

A WEEKLY JOURNAL PUBLISHED AT WASHINGTON CITY.

THE UNDERSIGNED PROPOSE TO COMMENCE about the first of June next, in the City of Washington, the publication of a weekly newspaper, to be called the SPECTATOR, designed for general circulation among the people of the United States. Its columns will contain a full digest of the news of the day, foreign and domestic; a weekly review of finance and the markets; a synopsis of the proceedings of Congress during its session; tables of election returns; the important political action of State legislatures, and of party conventions; interesting miscellaneous and scientific matter; articles on Agriculture; together with original articles upon the leading topics of the day. Much valuable information relative to the operations of the Executive Departments of the Government, together with a weekly list of new patents, will be found in its columns. A large portion of its space will be devoted to light literature, original and selected. Its location as the political centre of the Union, will afford opportunities always to procure the latest information on public affairs.

It is the intention of the undersigned to make the SPECTATOR an acceptable visiter to every house in the Union, and it will therefore not assume on any occasion the position of a partizan paper, nor will it owe any allegiance to men; but entertaining fixed and decided views on questions of political economy, and upon our system of government, it will disseminate and promulgate them as occasion may require—always keeping carefully in view the interests of the country, growing out of foreign as well as domestic affairs.

The SPECTATOR will be printed in quarto from, on good paper and new type; each number containing eight pages of matter, making one volume annually of 416 pages.—Each volume will be accompanied by a full and complete index to its contents, thus making it a most valuable paper for preservation and reference. It will be published every Saturday morning, at $2 per annum, payable always in advance. No paper will be continued beyond the time for which it is paid.

All subscription and communications on business should be addressed to the undersigned at Washington, D. C.

Proposals for Live Oak for six Steam Sloops-of-War.

NAVY DEPARTMENT,
Bureau of Construction, Equip't, &c.,
June 22, 1855.

SEALED PROPOSALS FOR DELIVERING ONE or more live-oak frames of a sloop-of-war one to be delivered at each of the navy-yards at Pensacola, Norfolk, Philadelphia, New York, Boston, and Portsmouth, N. H.—will be received at this bureau until the 3d September, 1855.

These proposals must be endorsed "*Proposals for Live Oak,*" and addressed to the "*Bureau of Construction,*" that they may be distinguished from other business letters. The offers must be for the whole of one frame, estimated at thirty thousand cubic feet, and, as required by law, must be accompanied by a suitable guarantee, the form of which is herewith given. Sureties in the full estimated amount will be required to sign the contract, and, as additional and collateral security, fifteen per cent. will be withheld on the amount of each delivery until the contract is fully completed. In all deliveries of the timber there must be a due proportion of the most difficult parts of the frame, and of the principal pieces; otherwise there will be withheld such further amount in addition to the fifteen per cent. as may be judged expedient to secure the public interest until such principal pieces and difficult portions shall be delivered. The remaining eighty five per cent. or other proportion of each bill when approved in triplicate by the commandant of the yard, will be paid by such navy agent as the contractor may name, within thirty days after its presentation to him.

It will be stipulated in the contract that if default be made by the parties of the first part in delivering the timber named, of the quality and at the time and place provided, then, and in that case, the contractor and his sureties will forfeit and pay to the United States, as liquidated damages, a sum of money equal to twice the amount of the contract price there agreed upon as the price to be paid in case of the actual delivery thereof, which liquidated damages may be recovered or retained at any time from the said parties of the first part or either of them.

The timber must conform to drawings and instructions with which the contractor will be furnished, and work to moulds and bevellings with which he will be provided from the United States navy-yard at Philadelphia. The whole must be cut from trees growing within thirty miles of the sea, of which the commandant of the yard will require satisfactory evidence.

The frame timber may be delivered in the form of promiscuous timber—that is, sided straight and fair, but rough-hewed the moulding way, showing a face of two-thirds the siding; the timber need not be bevelled, but must be of sufficient size to work the shape of the moulds and hold the bevellings shown on the bevelling boards.

In the measurement, the full moulding size marked on the moulds (which is one and a half inch larger than will be worked in the ship) will be allowed, provided the piecies will hold that size; but no additional size beyond that marked in the moulds or in the instructions will be paid for.

The siding of the steam, apron, fore deadwood, steamson, deadwood knees, stern-post knee, and keelsons, must be 18½ inches; the stern-post and after deadwood to side 29 inches in the largest place, and the hooks to side 14 inches. The siding of the frame timber must be 13⅛ to 14 inches, and of the promiscuous timber, one fourth part must side 18 inches, and the remainder 13¼ inches.

The throat of the floor timber to mould 17½ inches, at at the floorhead 14 inches, and at the plank shear 7 inches.

The midship or dead flat floor timber has a curve of 12 inches in 20 feet; the first futtock 4 inches in 17 feet; the second futtock 24 inches in 13 feet; the third futtock 27 inches in 13 feet; the fourth futtock 4 inches in 14½ feet, and the top timber 10 inches in 17 feet.

The entire frame of each ship to be delivered at the respective yards at the risk and expense of the contractor, subject to the usual inspection, to the entire approval of the bureau, and all to be delivered on or before the 1st October, 1856.

Persons who may be disposed to offer for more than one ship will make a seperate proposal for each.

HILLSVILLE ACADEMY,
CARROLL COUNNY, VA.

THE TENTH SESSION OF THIS INSTITUTION will commence on the tenth of August, 1855, under the superintendence of the former very able and accomplished Instructor, Benjamin F. Thompson.

At the close of each session there is a public examination. We have examined his students, and heard them examined by men experienced in teaching, graduates of the best colleges in the United States, and we do not hesitate to say that, the facilities here offered for acquiring a thorough education, are not surpassed by those of any other institution. The school is very promising.

The course of studies includes all the branches taught in the best academies. Tuition varies from five to twelve dollars and fifty cents, according to studies pursued. Board can be had in town at $5 per month; in the country at $4, in good families. Board so cheap, places an education within the reach of all; it is done to encourage the school. Parents and guardians at a distance, may have no fears in placing young persons under the care of the teacher, for they will be under his immediate protection.

No pains or expense will be spared on his part, for the mental and moral improvement of all entrusted to his care.

FOR SALE,
A highly valuable water-power on a neverfailing stream, with an abundant supply of water, and near the Railroad.

THE SUBSCRIBER, INTENDING TO REMOVE to the southwest, wishes to sell his

OIL, GRIST, AND SAW MILLS

situate on Neuse River, about nine miles northeast of the city of Raleigh, and two and a half miles from Huntsville Depot, on the Raleigh and Gaston Railroad.

The mill tract contains about thirty-two acres of land lying on both sides of the river.

The OIL MILL is in perfect order, its machinery is of the most approved construction, and is capable of producing fifteen thousand gallons, per annum, of cotton seed, linseed and castor oil. There are also attached to it one of Carver's largest size cotton gins and a cotton screw. Fifteen year's acquaintance with the oil making business justifies him in the remark that it is one of the most profitable and satisfactory that he has any knowledge of.

The SAW MILL, re-built two years ago, and running with Hotchkiss's vertical wheels, is surpassed by few in the country, and a ready sale is found for the lumber at the mill.

The GRIST MILL has a large custom, and being in a thickly settled and largely grain-growing neighbourhood, would, with slight repairs, command a custom yielding 500 barrels of toll corn a year, while at a small expense a flour mill could be attached to it which would yield an annual toll of one thousand bushels of wheat.

A more favourable opportunity for a profitable investment, in Wake county, has never been presented. In the hands of a prudent and energetic man, who would give them his personal attention, these mills would pay for themselves in a very short time.
